SHOW AND SALE

THE "OFF GRASS" FEMALES

The following females in this sale make up the "off grass" female section. Since this sale feature was initiated in 1956, over 400 female lots have been sold in this division of the sale.

Practical cattlemen will be the first to recognize that there are many good quality, well bred registered females that are not brought up to show condition. In some cases the owners do not desire to fit cattle . . . or possibly can give close attention to only a few a year. In other cases a breeder may wish to sell some good cows, keeping their daughters in the herd. In any event the "off grass" division provides a fine opportunity for the cowman who can tell a good one in its working clothes.
